“...We are to consider the dealings of God  
with the nations of the earth.

We are to see in history the fulfillment of prophecy,  
to study the workings of Providence  
in the great reformatory movements,  
and to understand the progress of events in the marshaling of the nations  
for the final conflict of the great controversy.

“Such study will give broad, comprehensive views of life.  
It will help us to understand something of its relations and dependencies,  
how wonderfully we are bound together  
in the great brotherhood of society and nations,  
and to how great an extent the oppression and degradation  
of one member means loss to all.”
